Proposal to widen access to Febuxostat for prevention of tumour lysis syndrome

Tōpūtanga Tapuhi Kaitiaki o Aotearoa, New Zealand Nurses Organisation (NZNO) welcomes the opportunity to comment on the above proposal.

NZNO is the leading professional nursing association and union for nurses in Aotearoa New Zealand, representing 51,000 nurses, midwives, students, kaimahi hauora and health workers on professional and employment matters. NZNO embraces Te Tiriti o Waitangi and contributes to the improvements of the health status and outcomes of all people of Aotearoa New Zealand through influencing health, employment, and social policy development.

Furthermore, we share the intent of the Ministry of Health's definition of equity which equally applies to NZNO work across professional, industrial and member activities.

NZNO, in particular the New Zealand College of Critical Care Nurses supports PHARMAC's proposal to widen access to Febuxostat for prevention of tumour lysis syndrome. While the number of individuals who may benefit has been identified as small, this is a positive action with the potential for a positive outcome.
