Proposal to list rehabilitation products supplied by Arjo New Zealand Limited

Tōpūtanga Tapuhi Kaitiaki o Aotearoa, the New Zealand Nurses Organisation (NZNO) welcomes the opportunity to comment on the above proposal relating to rehabilitation equipment, patient positioning products and supports supplied by Arjo New Zealand Limited.

NZNO is the leading professional nursing association and union for nurses in Aotearoa New Zealand, representing 51,000 nurses, midwives, students, kaimahi hauora and health workers on professional and employment matters. NZNO embraces te Tiriti o Waitangi and contributes to the improvements of the health status and outcomes of all people of Aotearoa New Zealand through influencing health, employment, and social policy development.

We share the intent of the Ministry of Health's definition of equity which equally applies to NZNO work across professional, industrial and members' activities.

NZNO supports PHARMAC's proposal to list 520 rehabilitation products across a number of ranges, supplied by Arjo New Zealand Limited.

We endorse the agreement that this would not be for sole supply and DHBs could continue to purchase other suppliers' brands of rehabilitation products.

With the introduction of new products NZNO has an expectation that those using the products will be offered training and support to use them appropriately.
