A light supper is provided.

Greater Auckland Regional Council

We are a friendly group of NZNO and
Te Runanga members who get
together to discuss issues in our
workplaces. We are from different
areas but have a common goal and a
united voice.

We hold education and
information evenings to provide
members with “hours” for their
portfolios. We are proactive in
nursing and health issues and
supportive of providing the best
health care to everybody.

Get involved and make a difference.

YOUR VOICE
does count.
