

My name is Geraldine Kirkwood and I have been privileged to work as CNM for Waitakere Outpatient's for almost 17 years (so far), originally from Ireland my training and initial registration occurred in the United Kingdom.

I am married with one daughter who was born here in Auckland.

I hold a Diploma in Nursing, yes I was one of the first project 2000 groups, and also hold a post grad diploma in Health Management.

Further post grad study had been started just before COVID hit, this study is currently on hold.

I am very active in GAR (Greater Auckland Regional Council) being Co-vice chair and member as well as being on the NZNO board of Directors.

I look forward to meeting you all over the coming year.
