

Diabetes Nurse Educator – Oamaru Hospital

An exciting opportunity has arisen for a Registered Nurse to be part of our Diabetes team at Oamaru Hospital. This is a 0.4 FTE (2 days a week).

We are looking for an enthusiastic and experienced Registered Nurse with extensive clinical expertise in diabetes or a special interest in diabetes. Friendly, adaptable and professional with a desire for the best outcome for the client and a passion for seeking knowledge is a must. Our close-knit team works with our small but diverse North Otago Community.

The role has a specialty focus on supporting people with diabetes and their whanau, includes teaching other health professionals and the facilitation of both formal and informal learning opportunities.

This is a multi-faceted position working with both inpatient and outpatients, alongside a multi-disciplinary team.

The successful candidate will be supported and encouraged to further their education and knowledge in diabetes.

To be considered the candidates must have or demonstrate:

- Clinical expertise within diabetes care or a special interest in the same.
- Current Registration and annual practicing certificate
- The ability to be adaptable, flexible and solution focused
- Proven ability in working autonomously and collaboratively with the client, community and other health professionals.
- Good time management and the ability to manage work in a planned and co-ordinated manner.
- Post-Graduate Nursing Qualification (or working towards)
- Current driver's licence
