

CENNZ CNM & CNE Network Report 2022 Annual General Meeting College of Emergency Nurses New Zealand (NZNO)

Charge Nurse Manager Network- Anna-Marie Grace

The Charge Nurse Manager (CNM) network was revived mid way through this year in the post COVID refresh. The group has had a huge turnover in the last 12 months. In early October a face to face meeting was held in Wellington to reconnect the network and introduce over a third of new CNM's to the experienced CNM's. On the agenda there were three presentations:

- Update on the Shorter Stays in ED project from Peter Jones
- CCDM - Safe staffing in ED's presentation from Melissa Jenson (Safe staffing unit)
- Health reforms and workforce development presentation from Nadine Gray (an ex ED nurse) from the office of the chief nurse

There was also time for networking and discussions in rural, regional and metro groups so that similar groups can learn and share from each other.

Overall this day was really well received from the CNM group and looking forward to continuing the conversations in the future. Thanks to Anne Esson from Christchurch that helped me organise the day

Clinical Nurse Educator Network- Anna-Marie Grace

The Nurse Educator network has been impacted by COVID and is in the middle of a refresh. Similar to the CNM group many Nurse Educators have changed over the last 12 months. The new email group will come out in early November with the CMN group reviewing the current NE they have in departments. Some early planning for a Face to Face in March has started.
