

Kia ora

Thank you so much to the NERF board for awarding me this scholarship. This scholarship has allowed me to concentrate whole heartedly on my studies in Semester 5 and Semester 6 by relieving some financial pressure. This scholarship has allowed me to pay for childcare for my children while I study and attend clinical placement in the final year of the Bachelor.

One of the major hurdles that I have encountered during the previous two years of study is the impact that study has my family, especially clinical placements. So this grant I have decided to use to ensure that I am prepared for Semester 6, as well making sure my wonderful (who have whole heartedly supported me) are able to have some clarity while I navigate this final year. My family and I were able to spend some quality time together, family is so important, especially when you are in a role where you are helping people.

Thank you so much! Nga mihi Nui  
Debbie
