Dear Diana, on behalf of Board of Trustees;

I would like to thank you for the NERF Travel Grant from August this year. The conference I attended gave me further knowledge of my chosen field of interest - nutrition and prevention, and also the opportunity to meet other people from around the world also passionate about this. And, as I have not done a great deal of travel, it was also very cool to explore a new city and expand my perspective of life.

Again, thank you for this grant.

Kind regards,

Renee Whalen
