

Author index, *The Dissector*, volumes 1–33, 1974–2006

(Please also refer to the subject index for a list of subject headings.)

This index follows *APA* (American Psychological Association) style, with further formatting for readability:

Marenzi, B-M.

(2005). Table talk, from the chair. 33(2), 28–29; 33(3), 38.

The articles titled “Table talk, from the chair” can be found in Volume 33 (2005), issue no. 2, on pages 28-29 and in Volume 33 (2005), issue no. 3, on page 38.

The *abbreviation* (n.t.) denotes no title.

Where it is useful to provide more information, *parenthetical material* has been inserted after the title in [square brackets]. For example, [Winner of Johnson & Johnson Ethicon & Endosurgery Divisions Theatre Nurses Travel Award 1995].

The author index reflects the change over time from the NZNA to the NZNO, by posting articles under the name of the organisation as it was when the article was written; for example:

NZNA Theatre Nurses Special Interest Section, NZNO Theatre Nurses Special Interest Section, Perioperative Nurses Association of NZNO, Perioperative Nurses College of NZNO.

Articles listed under the main headings **NZNA Theatre Nurses Special Interest Section, NZNO Theatre Nurses Special Interest Section, Perioperative Nurses Association of NZNO**, and **Perioperative Nurses College of NZNO** (and the associated regional sections, etc) are just the articles that have no personal author attributed to them.

Note that volume 25 was not published: the index therefore goes from 24(2) to 26(1).

A

Ackland, C.

- (2000). The perioperative role. *28*(2), 15–17.
- (2002). Microvascular surgery at Hutt Hospital: An overview. *30*(2), 16–18.
