

Hongihongi te rangi hou
'Smell the fresh air'

College of Respiratory Nurses – NZNO

Website Report

The website continues to be updated as changes occur. Website traffic is slowly increasing with steady traffic most of the year with spikes seen in April prior to our symposium and again in November. There was a total of 3,069 visits to our website between January and December. The most visited page is our home page followed closely by the conferences and events page.

Resources and our newsletter are also accessed on a regular basis and the average time spent on any one page is 1.30 minutes. We encourage you to continue to use the resources provided on the website and
