

Stomal Therapy Week 2025

AASTN + NZNOCSTN

23-29th June 2025

Recognising the connection between ostomates and those who support them

Join us this Stomal Therapy Week as we celebrate the incredible impact of stomal therapy nurses.

Stomal therapy nurses improve quality of life by providing expert clinical advice, education, support, problem solving and coordination of care for stoma, fistula, continence and wound management.

Their expertise, compassion and dedication transforms lives every day and makes a difference beyond measure.
