Embracing our whakapapa – Mana o te wai

While pandemics have been a feature of our past, although none as significant as COVID-19, while it has had significant global economic and social impact, the national impact was considerable to Māori. The state of emergency lockdowns made it illegal for us to visit the Maunga, bathe in the Awa, gather with whānau or have whānau at the bedside of our sick whānau or be at tangihanga. For some impacted by these decisions, it contributes to trauma. Our conference will embrace the opportunity to reconnect and, with the amazing line-up of speakers, allow us to explore our inner strengths.

We welcome our speakers.

Teah Carlson

Annette Sykes

Kathryn Chapman

Rangi Blackmore

Nayda Hayes

Tracy Haddon

Dhyanne Hohepa

International guest speakers to be confirmed.

HAKARI

Regional awards

Pharmac Awards
