

Nurses a Voice to Lead:

Health For All –
Safe Staffing

The right level of staffing
and the right mix of skill
and experience are
required to care for
every patient.

cate

Building positive and healthy relationships with employers and colleagues will improve workplace culture.

workplace culture

Quality and safe care is
important.
Excellent care is
always
the top priority.

quality and safety

Everyone has the ability to lead. Staff should be encouraged to take roles of authority and to use the full authority of their role.

skill

Extending knowledge will
improve patient care.
Support is required
for staff to get the
knowledge and skills
needed.

team

Good patient outcomes
rely on a whole team.
Planning together as a
team will achieve better
results.

A safe environment and the right technology are important. Staff need to be involved in decisions about what's needed and where.

working tools

- 
1. Are you aware of what is happening with safe staffing in your work place?
 2. If so, what are the barriers to progressing this work?
 3. What would it take to shift this work along?
