

Educational Resources

This list is of educational institutions that provide post graduate papers for nurses, some of which are speciality papers for perioperative nurses and others that are generic and related to the nurses role i.e leadership, education, research. These are all suitable for Post grad Cert, Diploma and Masters or as “stand-alone” papers.

The list is in no way intended as a recommendation, merely a resource of what is available.

Some of the Specialty papers are on-line from overseas.

This list will be reviewed annually to ensure it is current and complete.

If you know of other resources not listed please contact Professional Practice Committee lead , Gill Martin, citynurse2017@gmail.com
